Eye Contact: In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention if irritation occurs.

Notes to Physician: Treatment based on sound judgment of physician and individual reactions of patient. Product contains a minimal amount of triphenyl phosphate that has been reported to be a weak cholinesterase inhibitor in humans. Atropine and/or pralidoxime may be antidotal in cases with ingestion of a large amount of this product if cholinesterase inhibition is suspected.

*****ALWAYS SEEK MEDICAL ATTENTION IF ANY IRRITATION OR ALLERGIC REACTIONS DEVELOP*****

SECTION V – FIREFIGHTING MEASURES

Product Flash Point: > 300°C (572°F)

Suitable Extinguishing Media: Dry chemical, Foam, CO₂, or Water fog.

Mechanical Impact Sensitivity: None known

Static Discharge Sensitivity: Sensitivity to static discharge is not expected

Flammable Limits in Air – Upper Percentage: Maximum % by volume of vapour in air above which propagation of flame does not occur on contact with a source of ignition:
N/D

Firefighting Procedures: Containers can build up pressure when exposed to heat or fire. If a fire involving large amounts of material should develop it should not be approached due to the risk of rupture by individual containers causing a “fireball” effect.

Firefighters should wear self-contained breathing apparatus (MSHA/NIOSH approved or equivalent) and full protective clothing gear to prevent contact with skin and eyes. Use water spray to cool nearby containers and structures exposed to fire.

SECTION VI – ACCIDENTAL RELEASE MEASURES

*****TAKE CARE FLOOR SURFACE WILL BE SLIPPERY AT SITE OF SPILLAGE*****

Action to be taken if material is released or spilled:

Wipe, scrape or soak up in an inert material and put in a container for disposal. Wash walking surfaces with detergent and water to reduce slipping hazard. Wear proper protective equipment as specified in the protective equipment section. Large quantity spills should be contained and pumped into drums for recovery or disposal.

SECTION VII – PRECAUTIONS FOR SAFE HANDLING AND USE

Precautions for Handling & Storage:

Keep container closed when not in use. Good hygienic practices should be observed. Work clothes should be washed separately at the end of each work day. Disposable clothing should be discarded with material.
