

Dependable Honeywell transformers and contactors deliver an outstanding performance every time. Honeywell offers a complete array of transformers and contactors to meet all your commercial HVAC applications. Designed to exceed industry safety and lifecycle standards, affordable Honeywell transformers and contactors provide reliable service day in and day out. From rigorously tested commercial NEMA-rated transformers to contactors, you can meet your needs with just one brand — Honeywell.

Commercial Transformers And Contactors

Commercial Transformers

If you're purchasing ZonePRO™, Commercial VisionPRO® 8000 or CommercialPRO® 7000 thermostats, you should also be purchasing Honeywell NEMA transformers. These 20 VA, 40 VA and 48 VA rated transformers undergo strenuous testing to ensure that they fully meet the NEMA regulation curve and will provide optimum performance under fluctuating power quality, such as over-voltage/under-voltage conditions. An over-voltage situation may cause high heat build-up, which can melt contacts or damage sensitive components to reduce the life of your equipment. An under-voltage situation will prevent your appliance from working due to poor current quality.

Engineered To The Highest Standards

To qualify for the NEMA ratings, Honeywell takes extra measures to ensure that the transformer quality meets the highest industry standards. This includes using the proper number of laminations and the correct number of copper turns in the winding during the manufacturing process. These design measures result in Honeywell's secondary voltage curve being controlled within +/- 5 percent of the specified voltage. The robustness of the NEMA transformer pays for itself.

Non-NEMA			
Electrical Ratings	Electrical Ratings (Input Voltage)	Product Number	Mounting
50 VA	120 / 208 / 240 Vac	AT150F1022	Multi
	208 / 277 / 480 Vac	AT150F1030	Multi
75 VA	120 / 208 / 240 Vac	AT175F1023	Multi
	208 / 277 / 480 Vac	AT175F1031	Multi
NEMA			
Electrical Ratings	Electrical Ratings (Input Voltage)	Product Number	Mounting
19 VA	120 Vac	AT20A1123	Foot
40 VA	120 Vac	AT40A1121	Foot
	120 / 208 / 240 Vac	AT72D1956	Multi
50 VA	120 Vac	AT87A1049	Foot
	120 / 208 / 240 Vac	AT87A1106	Foot

Commercial Contactors

For commercial applications, the Honeywell lineup of 3-pole and 4-pole PowerPRO™ contactors provides cost-effective reliability and performance. Durable and robust, PowerPRO models meet the ARI 780/790 standard of 500,000 cycles of mechanical life, 200,000 cycles of electrical life and 10,000 cycles of recycle life. These contactors feature a dust cover to extend the life of the contacts and to prevent ants, bugs and debris from causing undesirable failures. In addition, Honeywell also offers auxiliary switches in NO, NC, NO/NC, 2NO and 2NC configurations.

Experienced And Tested

Fifty years of experience goes into every Honeywell contactor. Each one undergoes a rigorous qualifying process during which they are subjected to numerous manufacturing and application specific failure modes. Only contactors that pass this process are added to the Honeywell portfolio, so you can rest assured that when you choose Honeywell, your jobs are powered by the best products in the industry.
